Control your fuel costs

Fuel is often your second-largest fleet expense — typically around 20% of total running costs.

But the impact goes beyond the pump: manual expense claims, fluctuating cash flow, and complex tax recovery all add to the challenge.

Get discounted commercial rates

Fuel Cards can unlock significant savings. A typical discount of 10p per litre on diesel and unleaded across 20 vehicles could save your business thousands¹. Even greater discounts may be available for larger fleets.

Less paperwork. More visibility

Fuel Cards eliminate pay-and-reclaim admin, with real-time reporting and HMRC-compliant invoicing that streamlines fleet management.

1. Based on fuel consumption of 11.5 miles per litre (~52 mpg) for 12k miles annually. With 10p per litre discount applied to average 1,043 annual litres x20 cars. Discounted commercial rates depend on the total annual litres purchased. Subject to status and credit acceptance.

Smart network matching

We help you choose from the UK's top fuel and Electric Vehicle (EV) charging networks — ensuring the best commercial rates and seamless operations for your business.

Gain access to a nationwide network of leading fuel and EV charging stations, including motorway and trunk road service areas. Benefit from a fixed weekly commercial rate across our trusted partner networks.

Drivers can also link their Fuel Card to the app for easy, on-the-go management of fuel purchases — plus enjoy added perks like loyalty points at participating stations.

			
Network	Fuel at over 3,700 fuel stations in the UK and access a large network of over 23,000 EV charge points.	Fuel at over 3,400 convenient filling stations nationwide with bp and bp partners.
